INDEX

ACADEMIC YEAR 2019 – 2020

Sr. No.	Name of the Activity
1.	SWACHWARI, SWASTHAWARI, NIRMALWARI AND HARITWARI
2.	TREE PLANTATION PROGRAM
3.	FIGHT AGAINST COVID -19
4.	AWARENESS PROGRAM ON ORGAN DONATION
5.	PLASTIC FREE AWARENESS DRIVE
6.	COVID AWARENESS AND MASK MAKING DURING LOCKDOW

SWACHWARI, SWASTHAWARI, NIRMALWARI AND HARITWARI

On June 29, 2020, our students participated in a variety of activities. This year, the pandemic altered the situation with regard to teaching students humanistic and social service principles. Student volunteers were unable to work on the pitch because of the lockdown. Instead, they carried out independent tasks in accordance with COVID guidelines in their own neighborhood. A week's worth of activities:

1. Volunteers ran a cleanliness campaign while simultaneously raising awareness of "No Spitting" and "No to Open Defecation".
2. Fruit tree plantings were carried out in various locations around the respective neighborhoods as well as on college grounds.

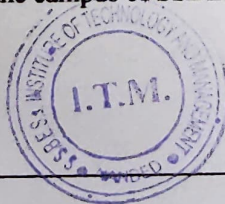

Tree Plantation Program

On 09/08/2019, students enthusiastically participated in the tree planting activities. Students got a better understanding of nature through this practice. Their act of planting saplings will aid in protecting the environment from a number of problems, including soil erosion and global warming.

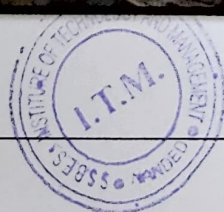

Tree plantation in the campus of SSBES' ITM

FIGHT AGAINST COVID -19

The management, Director, staff, alumni, and students of the college helped migrant workers and daily wage employees throughout this pandemic. They gave to the good cause of providing food and cooking for the less fortunate. On the college campus, students and a few parents made 50 packets of food each day for 20 days. Social distance and the wearing of masks were carefully observed. Sanitizer was developed by the college and provided to the teaching and non-teaching employees, as well as to the police, rickshaw drivers, labourers, and court workers. The Lashkar Police and local officials thanked the college and administration for this deed of compassion.

AWARENESS PROGRAM ON ORGAN DONATION

More of us than we might think appreciate the significance of organ and tissue donation for both society and the people it directly impacts. The students came to the conclusion that there is an urgent need to raise awareness regarding organ donation after keeping this in mind.

PLASTIC FREE AWARENESS DRIVE

A "Plastic Free Awareness Campaign" was held on February 10, 2019, by the Department of Computer Science at the SSBES' Institute of Technology and Management in Nanded to educate the local populations about the negative impacts of plastic waste pollution on the environment and human health. In light of the aforementioned, the event was organized to raise awareness of the effects that plastic waste pollution has on the environment and human health, as well as the ways that simple everyday activities may help to reduce the problems that plastic pollution continues to cause.

The Campaign, which consisted of an awareness rally, was conducted at a very opportune time when the concern around protecting and preserving our environment and ecology has attained global dimensions. As a result, this event created the right atmosphere and the volunteers' enthusiasm seemed too contagious. Even though the conditions were a little unfavorable and inclement on that particular day and made it challenging for the volunteers to carry out their campaign, everyone did their part with a feeling of responsibility, which eventually assured the campaign's success.

COVID AWARENESS AND MASK MAKING DURING LOCKDOWN

With regard to the present pandemic, the students recognized the need to take action and raise awareness and immediately got started. According to WHO recommendations, students created videos and banners advising people to take precautions during the pandemic. To raise awareness, these videos were shared on social media. Students gained knowledge about how to be responsible and behave sensibly in emergency situations.
