## Skill Development

The aim of this report is to present an IoT-based robot designed to assist doctors in the medical field, particularly during the COVID-19 pandemic.

The system utilizes an Arduino UNO board to control a robotic arm equipped with servo motors.

Wireless communication is established through a Bluetooth module, enabling control commands from an Android app.

This innovative solution aims to support healthcare professionals and enhance their efforts in providing effective and safe care to patients.

Staff Members of SSBES` ITM College Nanded attended the Yoga Session on 21/06/2017

## International Yoga Day

Yoga Day is celebrated among the youth and children to make them understand the importance of Yoga in their life.

It helps the students understand how to maintain harmony between body and mind.

Two lectures organised to explain the importance of Yoga.

Director Dr. S.B. Thorat explained the importance of breath in meditation. He told the students they should read ancient Indian texts like Patanjali Maharishi's 'Ashtang Yog' along with personality development books by International writers. He encouraged the students to practice Yoga and meditation on a regular basis for a healthy body and mind.
